Managed the marketing campaign teams for 3 companies; Miami Beach Body, Golden Touch and The Miami FC leading to higher social media engagement.

RELEVANT PROJECTS

Cafecito

Hack GT 2017 - Hackathon

I helped build an ANTLR grammar rule that checks a mapping of the translation and then replaces the reserved words. We have a Java program that loops into the class file and then brings it to the standard library.

Clean Slate

Knight Hacks 2017 - Hackathon

A coloring book app that gives you images and color palettes based on how you are feeling and how you want to feel. Built with React Native, this was my first exposure to the framework.

Text Me When You Land

Hack GT 2017 - Hackathon

Webapp that issues a QR code to the bag ticket and sends text messages at each point of movement in order to mitigate lost baggage. Built with Javascript and firebase.

AFFILIATIONS
